EGG DONATION PROGRAM

OPTIMAL package

5.900 €

GUARANTEE OF MIN. 2 BLASTOCYSTS*

- **Egg donation**
Egg donor matching and selection, synchronization of the menstrual cycles of the donor and the patient-recipient. Donor stimulation and oocyte pick-up, including all necessary medication for the donor.
- **Semen analysis**
Preparation of semen sample for fertilization and freezing for the therapy.
- **Fertilization by ICSI**
Intracytoplasmic sperm injection.
- **Embryo monitoring to the blastocyst stage**
Approx. 120 hours from fertilization.
- **Assisted hatching**
- **Embryo transfer**

OPTIMAL PLUS package

7.200 €

GUARANTEE OF MIN. 3 BLASTOCYSTS*

- **Egg donation**
Egg donor matching and selection, synchronization of the menstrual cycles of the donor and the patient-recipient. Donor stimulation and oocyte pick-up, including all necessary medication for the donor.
- **Semen analysis**
Preparation of semen sample for fertilization and freezing for the therapy.
- **Fertilization by PICSI/IMSI**
Hyaluronan selected sperm for ICSI/ Intracytoplasmic morphologically selected sperm injection.
- **Embryo monitoring to the blastocyst stage**
approx. 120 hours from fertilization.
- **Assisted hatching**
- **Embryo transfer**
- **Embryo Glue****
Special medium to support implantation.
- **Vitrification**
Freezing of extra embryos including one year storage.

It is important to us that the entire treatment is understandable and all your questions and doubts are answered. During the treatment, you will therefore be looked after by highly qualified and experienced IVF coordinators, who of course speak several foreign languages including English. Our respected English-speaking doctors are also at your disposal. We not only want to provide you with the best medical treatment, but also form a trusting partnership on the journey to your child.

ANDROLOGY package

6.600 €

Optimal package without guarantee

- + **PICSI/IMSI/MFSS**
Selection of mature/morphologically normal sperm of fertilization.
Microfluidic sperm sorting
- + **Embryo Glue****
Special medium to support implantation.
- + **Vitrification**
Freezing of extra embryos including one year storage.

KET (NOT INCLUDED IN THE PACKAGE)

990 €

FERTICARE ALL INCLUSIVE pkg.

8.500 €

GUARANTEE OF MIN. 4 BLASTOCYSTS*

- **Egg donation**
Egg donor matching and selection, synchronization of the menstrual cycles of the donor and the patient-recipient. Donor stimulation and oocyte pick-up, including all necessary medication for the donor.
- **Semen analysis**
Preparation of semen sample for fertilization and freezing for the therapy.
- **Fertilization by PICSI/IMSI/MFSS**
Hyaluronan selected sperm for ICSI/ Intracytoplasmic morphologically selected sperm injection.
Microfluidic sperm sorting
- **MIRI Time Lapse****
Embryo-monitoring for the whole period of culture.
- **Embryo monitoring to the blastocyst stage**
Approx. 120 hours from fertilization.
- **Assisted hatching**
- **Embryo transfer**
- **Embryo Glue****
Special medium to support implantation.
- **Vitrification**
Freezing of extra embryos including one year storage.
- **The first cryo-embryo transfer included in the package***

* The cryo-embryo transfer guarantee is valid until a successful treatment (positive heartbeat proven by ultrasound) and is linked to results of the semen analysis.

** For the first embryo transfer.
